总评:

Hello, welcome to SmartPigai.

Here is a general feedback of your essay.

1. You have made a good analysis of the data given in the line graph. Your summary of the data covers all aspects of the graph. It is commendable that you started with making a comparison of the most distinct features of the graph. Such a summary requires good descriptive and comparative language. Thus, more of this is needed.

2. You made many single word errors that have made the essay look ugly. These include, among others, spellings, punctuations and poor use of prepositions. The wrong spelling of grams as "gramps" is consistent in your essay and actually shows that you did not proofread the essay after writing it. Otherwise, this mistake should not have happened. It is inexcusable.

3. Mind the word forms in your writing, for example, "consumption" in the second paragraph should be "consumed" because of the phrasing of the sentence. Avoid such grammar mistakes so as to write a better summary.

Despite being a sum of data given, it also requires good vocabulary and descriptive language.

Welcome to see you again at SmartPigai:)
